

Census Time in Ashland–Greenwood Public Schools

Ashland-Greenwood Public Schools is taking a census of children living in the school district from birth through age 18. Any baby born through June 30th of the current year will be included for the current year's census. Bev Hohensee will be conducting the count for the school district. The census is used for reporting a count of all children to the State of Nebraska by ages and is also used by the district for program planning.

If your children are already attending school here, we have that information, but if you have younger children, and haven't already given us that information, we need their information.
